

#### Slide 1: Title

Emoji with Sound — Making Chat Conversations More Expressive

#### Slide 2: Problem

Text-based emojis are limited to visual expression only. Users want richer, more immersive chat experiences.

#### Slide 3: Solution

Add sounds to emojis to enhance emotional expression in chats.

#### Slide 4: Features

- Sound effects matched with emojis
- Easy integration
- Open-source for community contributions

#### Slide 5: Market Opportunity

Millions use chat apps daily — sound-enhanced emojis can create new engagement.

#### Slide 6: Business Model

Offer as an open-source project with options for premium sound packs or API access.

#### Slide 7: Roadmap

- Prototype development
- Community feedback and iteration
- Partnerships with chat platforms

#### Slide 8: Team

Developed by Dhanraj Dnyaneshwar Thopate

#### Slide 9: Contact

Email, GitHub, Phone (if you want to add)
